To whom it concerns;

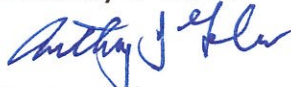

We Anthony & Cindy Golia have lived on Stanton Road since 1982 and Dot Putney has lived on 8 Stanton Road since 1962. Over the years we had our share of water problems in our yards.

Our biggest concern is when it comes time to build on this property, 245 Spring Road, that the water roll off does not affect us and flood our yards, the property slopes down towards our homes. If the pitch of their property is changed that would also affect our properties.

When the home was built in the rear of 259 Spring Road, we had the same issues. Mr. Bob Criscuolo was the engineer at the time and had the builder place curtain drains around the property. We would respectively like the same courtesy, it will protect our properties from any possible run off (flooding) in our yards leaving us in harms way.

Sincerely,

Anthony J Golia

Cindy Golia

Dorothy Putney
