Mr. Alan Fredricksen:

Craft Beer Distributing Guild of Connecticut, Inc. is requesting the North Haven Planning and Zoning Commission consider it's request to place a refrigeration unit in the rear parking/loading area and as shown on the attached plan. The proposed unit measures appr. 8' wide and 14' long and would be placed on pressure treated 4" x 4"s in front of an existing rear staircase.

This refrigeration unit is used to refrigerate the "Keg Cooler" which is located inside the building. Due to the size and weight of the unit it cannot be placed on the roof. Being located at the rear of the building the unit cannot be seen from the street.

Please let me know if you have any further questions or comments about this matter.

Thank You for your cooperation on this matter.
