

Slate School – Event Parking Plan

In the event that the Slate School holds an event, and it is anticipated that the number of vehicles will exceed 36 parking spaces, the Slate School will:

1. Arrange for valet parking and/or parking attendants;
2. Arrange for “off site” parking for excess vehicles;
3. Ensure that there is no event parking on Ridge Road

Fall 2029

Slate School – Student Parking Plan

The Slate School may allow seniors to park on campus by specially assigned parking permits. The number of permits has not been determined. The Slate School does not anticipate having a senior class until the Fall, 2029 semester. As a result, the Slate School will have 5 years to monitor the use of the parking lot and determine how many parking spaces will be made available to seniors. The number of parking spaces offered to seniors would never exceed the number of available spaces.

This parking plan will be incorporated and made a part of the Slate School Student Handbook.
