

## **Planning and Zoning Commission**

### **Section 8-24 Referral**

Application of the Town of North Haven to allow the Town of Wallingford to replace the Toelles Road Bridge over the Quinnipiac River. Although this is a Town of Wallingford project, being funded entirely through the Town of Wallingford the 8-24 referral is necessitated because a small portion of the bridge is owned by the Town of North Haven.

The current bridge was constructed in 1980 and has been rated “poor” by the Connecticut Department of Transportation as of 2015 and recommended for replacement as of 2019. The existing substructure (footings; abutments;) is proposed to remain. The existing superstructure (beams; girders; deck;) is proposed to be replaced.
