Re: 160, 162, 164 State Street

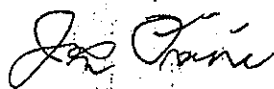

To Whom it May Concern,

We have the need to place a secured storage container that will hold our snow removal equipment on the South side of the parking lot between the two existing car ports.

In the past, we have had equipment stolen from the property and this container is our only option to keep the equipment safe and ready for use. It will only be there during the winter season.

This equipment is a necessity for the safety of all our tenants to avoid slips and falls especially since this is a 55+ complex with many elderlies living there.

Best Regards,

  
John Orsini
